COMPANY OVERVIEW

ABOUT US

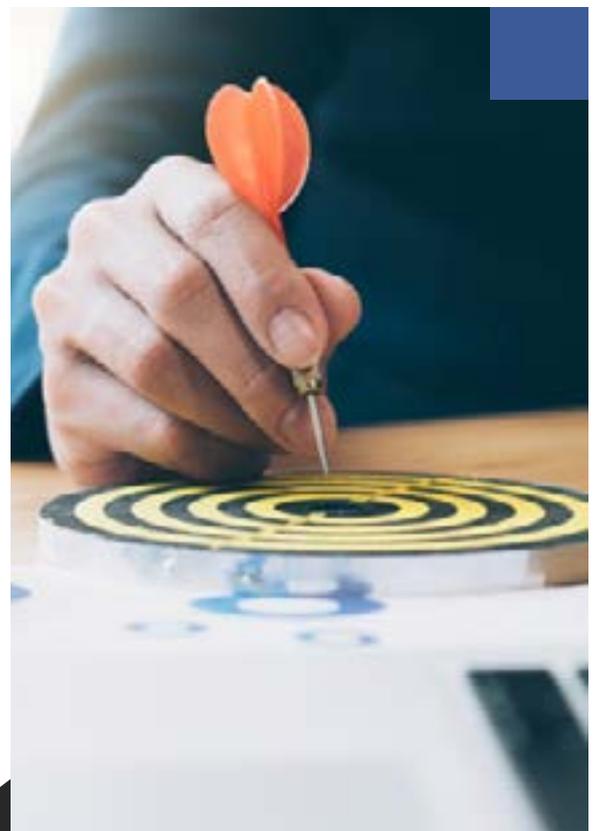

Lean6SigmaPro (unit of XergY pronounced as X-ERGY) is a Bengaluru based startup, one-stop solution for all your Lean Six Sigma requirements & beyond. XergY is into developing Innovative Technological Solutions for most complex problem, Consulting, Training, Certification, Mentoring & Placement.

Lean6SigmaPro's Training & Certification help professionals acquire the best knowledge in Lean Six Sigma. A course designed to help participants acquire certification from the top three International recognised certifications bodies **EXEMPLAR GLOBAL** (a member of ASQ family), Technischer Überwachungsverein (English translation: Technical Inspection Association) South Asia (**TÜV SÜD**), The American Society for Quality (**ASQ**), **ISO** & The International Association for Six Sigma Certification (**IASSC**).

Lean6SigmaPro's Consulting vertical assist organizations to **build robust processes, strengthen the quality, enhance customer satisfaction**, deliver within shorter lead-times, and reduce operating cost to positively impact profit margins, resulting in **Accelerated growth** of an organization Accurately. XergY is highly enthusiastic to enable industries like Food processing & Healthcare embraces Lean Six Sigma principles to enhance their performance levels.

OTHERS VS. LEAN6SIGMAPRO

Features	Others	Lean6SigmaPro
Trainers Consulting Experience	Trainers with Black Belt or Master Black Belt little or no Lean Six Sigma Consulting Experience	Trainers with Master Black Belt certification and 16+ years of Lean Six Sigma consulting experience having delivered 200+ projects, and trained Fortune 50 companies and trained 2000+ professionals
Course Curriculum	Minimum Syllabus & no focus on Practical implementation	Exhaustive & Practically oriented Syllabus designed to help you drive projects and succeed in your corporate career
Project Driven Experiential Learning	Theory class with not much focus and exposure to Project & Practical Learning	The Course is designed with Project Driven Experiential Learning, to enable every participant with an experience of driving projects with the help of a case study.
Lean & Six Sigma	Very few elements of Lean are pushed into Six Sigma to call the course as Lean Six Sigma	Teach Lean & Six Sigma separately to help you master both the concepts
Concepts of DMADV & DFSS	Training is based on only DMAIC methodology few or no elements of DMADV methodology is covered.	Complete Along with detailed DMAIC methodology, all the critical elements of DMADV are covered, with DMADV case studies.
Minitab Practice	Nil or less than 4 hours of Minitab Practice during the training	80 hours of Minitab Practice with 50-100 Exercises with 200-500 real-life data columns to help participants to master the Minitab Concepts
Certification Recognition	Institute specific certificate or Internationally recognized Certification	Internationally Recognized Certification from TUV SUD or Exemplar Global. Support for ASQ and IASSC Certification.
Certification Guarantee	Not Guaranteed especially for Internationally recognized certifications	100% Guaranteed internationally recognized Certification

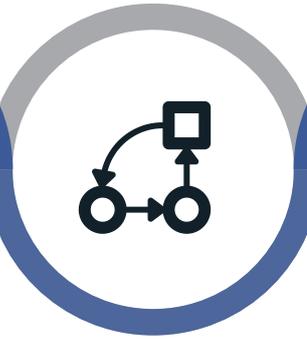

Features	Others	Lean6SigmaPro
Training Methodology	Learnt using mostly theory classes.	Learning is by fun using Games, Simulations & Practice sessions
Project for Qualifying	Either no project or a Simulation Project for project completion	Real-Life project to help you get the real-time experience of driving projects
Industry-Specific Training	Mostly two or three Industry-specific examples covered	Examples across ten industries covered
Classroom Strength	Mostly crowded with no individual focus	Limited seats with individual focus
Post-certification Support	Minimum (Skype/Phone call) or no Support	100% Support via phone/skype/face to face. 60+ Templates to help you execute the projects
Placement Assistance	Little or No Placement Assistance	Dedicated Student portal & WhatsApp group to communicate Job/Projects/Consulting Opportunities
Scholarship on Your Projects	No Scholarship for projects done at your companies	Scholarship on your projects done at your respective company
Opportunity to Earn Your Fee Back	No opportunity to earn fee back	Opportunity to earn your fee back

VALUE ADD FOR YOU

STRONG FOUNDATION

Our Simulation & Gamified course material coupled with trainers with rich consulting experience would help you lay a strong foundation for your Lean Six Sigma Journey.

USE OF CONCEPTS

Our experts would help you to start using the Lean Six Sigma concepts at your workplace which would make you proficient with the concepts & use of statistical softwares.

DRIVE PROJECTS

A Black Belt / Master Black Belt from your respective industry helps you identify a projects in your respective area of work and handhold you in driving projects.

MENTORSHIP

A successful consultant from your respective area would mentor you in LSS to help you achieve your **Goal & Accelerate** your career **Accurately**.

COURSE PROGRAM

BLACK BELT

The Black Belt is an expert statistical analyst and project leader. He is a critical member of Six Sigma Programs in any organization. We intend to prepare you for this crucial role. When you complete this course, you will be ready to lead high-impact projects to successful completion. The course is one of its kind and curated by five Lean Six Sigma consultants with a cumulative experience of over 80 years and over 500 completed projects.

It includes,

- 20 hours of simulation-enabled Lean training
- 120 hours of project-enabled experiential learning of Six Sigma
- Approximately 40 hours of project assistance
- Instruction in statistics for a deeper understanding of data interpretation
- The course prepares you for high paying Lean Six Sigma consulting assignments across various industries worldwide.

Mastery in Six Sigma:

The course is an optimal blend of theory, exercises, quizzes, toolsets, real-life industry-specific examples, and practical work. It ensures that you gain supreme command over Lean Six Sigma

Execute a Real-Time Project:

Lean Six Sigma is all about driving high impact projects.

Our curriculum offers you industry-specific projects, executed through simulation-enabled experiential training. This approach prepares you to handle real-life projects. We also have a compulsory project execution at the end of the course. This approach primes you for the practical application of Lean Six Sigma in your career.

Master Minitab Software:

Master the Minitab and be ready to solve complex problems across industries. The course includes,

- Over 80 hours of Minitab practice
- Over 100 exercises
- 500+ real-life data points

Leadership & Change Management:

Lean Six Sigma Black Belts need to be adept at Leadership and Change Management. We offer dedicated training in Project Management, Change Management, Leadership, and Teaming. With these, you acquire the competence to drive projects and be agents for change at your organization. We help you with internationally recognized certification from TÜV SÜD. However, the course design enables you to pass any certification exam like the ASQ.

COURSE INFORMATION

DURATION

Class Room Training: 14 Days – 140 Hours + 40 Hours of Project Guidance

Online Training: 28 days - 140 Hours

OBJECTIVE

To enable participants with the necessary knowledge, methodologies & skills required to drive & mentor DMAIC Lean Six Sigma Black Belt projects in their respective industry.

WHO SHOULD ATTEND ?

- Professionals with 4+ years of experience.
- Any Professionals thoughtful to accelerate their corporate career.
- Anyone who wants to consider Lean Six Sigma their career.
- Certified Black Belts looking to equip them to be able to drive projects.
- Professionals seeking Lean Six Sigma knowledge rather than just certification.

PROJECT ASSISTANCE

Free Assistance from an expert from your respective discipline.

ESSENTIALS

Certified Green Belts with minimum of 1 year as Green Belts or Professionals with 4+ years of Industry experience.

TRAINER'S PROFILE

- Certified Master Black Belt
- 16+ years in the field of Lean Six Sigma
- Full-time Consultant & Passionate Trainer
- Executed/Mentored 200+ Lean Six Sigma Projects
- Trained 2000+ professionals across industries
- Corporate Lean Six Sigma Training for fortune 50 Companies

ALIGNED & CERTIFICATION BY

- **Exemplar Global*** (A member of ASQ family)
- **TÜV SÜD*** (Technischer Überwachungsverein [English translation: Technical Inspection Association] South Asia)
- **ASQ**** (The American Society for Quality)
- **IASSC**** (The International Association for Six Sigma Certification)
*included in the commercials.
**ASQ/IASSC Certification cost is not included in the commercials.

CERTIFICATION PROCEDURE

- Attend 140 hours of instructor led training.
- Successful completion of Black Belt certification exam conducted by TÜV SÜD and Exemplar Global with 60% marks
(at the end of the 10th day).
- Submission of the project (within eight months from the date of completion of the course).

COURSE FEE INCLUDES

- 100% Placement assistance
- Refresher training at no charges
- Sample Question papers with solutions
- Support in executing the project for two year
- Industry-specific Lean Six Sigma case studies
- Lifetime access to Student Portal of Lean6SigmaPro Page
- Minitab Training & 80+ hours of extensive practice
- Examination & Certification Cost (for TÜV SÜD or Exemplar Global)
- Exclusive invite to attend Black Belt project presentations
- Mentorship & Assistance to accelerate your corporate career
- One hundred forty hours of Project Enabled Experiential Learning
- Lunch & refreshment during the training (Only for classroom sessions)
- Pay just the differential amount when you take up Lean Six Sigma Black Belt training in future.
